

# **HASHMICRO**

## Company Profile

# About **HASHMICRO**

As a leading ERP provider solution, we recognize the importance of enterprises' productivity and efficiency. That is why, in 2015, we took the opportunity to set up a cloud-based system that automates end-to-end business operations. Our clients trust us for our capability to develop a system that complies with their regular and specific regulations. This motivates us to bring the benefits of ERP software to a greater range of industries and solutions.

Our **Supply Management System** allows you keep up with fast-paced markets with complete visibility and advanced analytics.

**Sales Management System** lets you automatically create sales orders, quotations, multiple price lists.

# Clients Testimonial

---

“

HashMicro's ERP software helps us automate our accounting, sales, procurement, and manufacturing processes, making everything easier to track. So, we can focus more on enhancing our business and relations with customers.

“

As a manufacturer with a large number of customers, we were looking for a system that streamlines our workflows. HashMicro helps to simplify our inventory management, also sales and procurement procedures. Therefore, we can focus more on improving our product's quality.

*Designphase DBA*

“

Every day, we receive a large number of orders that needed to be fulfilled quickly. HashMicro has helped us streamline our daily operations by providing us with a fully-integrated ERP system, from monitoring inventory and procurement to managing sales and finances.

*Forbes Industries Asia*
